It is clear that information based technology is inseparable from today's society and that it is no longer a single minded effort. The same tools that we use to express ourselves and connect with the world,

are being used to counteract just that. What is freedom of speech without anonymity? How significant is our digital identity when compared to our physical identity?

Some people give up after injury, others may think you won't recover. I'm not one of those people, after my injury, I decided to be even better than I was before. In 2018 I had a training accident when a training partner fell on my leg, but I didn't let that stop me from achieving my goals. I believe that with the right training and mindset, anything is possible.
