

# Nicole Munits

054 - 6995699 n.munits@yahoo.com

## Profile

Curiosity-driven mobile developer with passion for new technologies and ideas. Someone who enjoys being responsible for and taking ownership over the product working on.

## Experience

2019 - Present

**Android Developer at BIT**, a free P2P payment platform by Bank Hapoalim, Israel's largest bank, that allows members of any bank to send and receive money using their contact list.

- Familiarity with Android Jetpack: ViewModel, Live Data, ViewPager2 and more.
- Experience with RESTful APIs to connect Android applications to back-end services, and working with remote data via JSON.
- Experience with: Multithreading, OO Design patterns, Intents, 3rd party SDKs
- Architectural knowledge of mobile development and a full understanding of the mobile development life cycle.
- Ability to account for accessibility services like TalkBack (focusability, content descriptions, etc.).
- Familiarity with cloud message APIs and push notifications (i.e. Firebase).
- Developing smooth and slick UI experience.
- Collaborating with various businesses in order to expand payment transfer options.
- Working closely with our product and design teams to build new and innovative application experiences.
- Comfortable with independent and self learning environment.
- Supporting teammates to ensure product and team success.
