Looking for a Full stack / Front end/ Back end developer position.

---

## EDUCATION

### 2020 | Elevation Academy, Full Stack Web Developer

An industry-based intensive 3-month coding Bootcamp which covered the entire MERN stack and beyond. Built a number of end-to-end projects from scratch while adhering to solid OOP principles and communicating with a number of external APIs.

Took part in 2 hackathons, my team's **Final Project:**

Kelev-app - A social app for dog owners. The app shows the closest dog parks relatively to the user's current location, tracking the dogs that are currently at the park or on the way, park facilities availability, editing/adding a dog profile to the account.

tech stack: Front-end: React.js, Mobx, Ant Design. Back-end: Express, Node.js, Sequelize, MySQL, Google APIs.

### 2014 - 2018 | Ariel University, B.Sc. in Computer Science and Mathematics

**Final Project:**

A project management system - Web application, developed using Node.js, MySQL, JavaScript, Java. The app manages various parameters of a project's lifecycle such as schedules, worktime tracking and offers progress reports and analysis.

---
