A solution-focused and technically competent Full-Stack Web Developer seeking a new challenge. Having architected and developed technical solutions, I excel at building and configuring secure products, visualizing and delivering expected results. Committed professional, highly organized, capable of working under pressure to implement solutions that perform.

---

## Skills

- C#, ASP.NET MVC Framework, .NET Framework
  - JavaScript, jQuery, Vue.js
  - HTML5, CSS3, Bootstrap, modern responsive techniques
  - Database Administration, SQL, MSSQL / SQL Server, Data Structure, Data Management
  - Microsoft Azure Cloud Platform
  - Microservices, Azure Service Fabric

  - RESTful APIs, Web Services
  - OOP, OOD, SDLC, EMV Protocol
- 

## Professional Experience

Feb 2018 – PRESENT

### Full-Stack Web Developer / Matrix, Hod HaSharon, Israel

- Building the Israeli Post company website with its multiple services and functionalities, serving hundreds of thousands of users. The website integrates RESTful APIs, Web Services and large-scale databases.
- Developing a back-office web application that allows managing the website's services.
- Architected and implemented technical solutions using .NET, C# and ASP.NET MVC
- Implemented interactive custom user interfaces using JavaScript, jQuery, Bootstrap, HTML5, CSS3 and Vue.js, ensuring a smooth rendering on multiple devices, browsers and environments.
- Created databases, queries and stored procedures with SQL Server, focusing on performance and security.
- Worked with Azure Cloud Services and Azure Service Fabric to easily package, deploy and manage scalable and reliable microservices.
- Developed addons for the Umbraco CMS system as well as integrated a secure payment platform using the EMV protocol.
- Successfully collaborated with a team of developers where great interpersonal skills and best coding practices are required to build web applications that perform.

2013 – 2018

### Production Planner / Rafael Advanced Defense Systems, Leshem Institute, Israel

- Planned and monitored the procurement schedules, production lines work plans and delivery to customers.
- Performed data analysis and created reports using an Oracle ERP system in order to take assisted decisions for the future.

2011 – 2013

### Information Systems Implementer / BrainsGate, Caesarea, Israel

- Implemented a web-based information system for clinical trials named OpenClinica.
  - Gathered system requirements, configured the new system, installed related software, implemented clinical trials and forms to facilitate the process while giving an outstanding user experience.
- 

## Education

2008 – 2012

### B.Sc. in Industrial Engineering & Management, Major in Information Systems / Technion - Israel Institute of Technology, Haifa, Israel

GPA: 84/100.

---

## Military Service

2004 – 2007

### IT Administrator

**DETAILS:** Maintained software, hardware and network infrastructures. During my service, I was honored as an outstanding soldier and served an extra 3 months in the standing army.
