Summary

I'm a frontend developer with extensive knowledge of new and old technologies. I love to learn new things. Like to develop UI / UX on the client. Dealing with server-side open (and close) source technologies. Consider myself lucky, I'm working at what I love.

Experience

Frontend Developer

Wix.com

Sep 2016 - Present (4 years 6 months +)

- Work in agile, with typescript, TDD, jasmine, git and all other Fed good stuff.
- Mentor in the kickstart course - the Wix course for junior developers who attend to work at Wix. As mentor, I set with the students on their tasks and projects and did code reviews, design review, brainstorm and helped them with their difficulties.
