IDF Exclusive Programming Course (“Gamma”).

Software team leading in Matzov unit, IDF.

More than 5 years of software development in C and C++ embedded applications, Linux OS.

Excelling in studying Computer Science in the Hebrew University of Jerusalem.

Skills

- C/CPP
- Python
- OOP
- Multithreading
- Linux
- Git
- Security
- Software Design

Experience

2014 – 2019

Software Developer / Matzov, IDF

- Worked on one of the main projects in Tikshuv Corps – “Cellular Tsvai”, which involved cellular and encryption.
- Developed several satellite embedded projects.
- Developed mostly in C and C++ over Linux OS.
- Some development in C# and in Python, and over ThreadX OS.
- High level of security-oriented development.

2016 – 2019

Software Team Lead / Matzov, IDF

- Established a satellite and encryption team in Matzov.
 - High level of software management using tools like Jira, Confluence, and more.
 - Experience in stages: specification, software design, programming, testing (UT, Jenkins), code reviewing.
- Tutoring junior programmers.

Education

OCTOBER 2016 – PRESENT

B.Sc. Computer Science / Hebrew University of Jerusalem

Ends third and last year around August 2022.

Latest year’s average: **90.8**.

FEBRUARY 2014 – JULY 2014

Software Training / Matzov, IDF

5-6 months of intensive hands-on embedded software training (Assembly, C/C++, Networks, Security, Cryptography, and more) at an elite embedded IDF unit.

Recognized for 24 credits at Open University.

SEPTEMBER 2010 – JUNE 2013

Software Engineering Studying / High School Education

Top of the class, 10 points Bagrut – final grade 100.

Other than Computer Science?

- Loves dancing in a dance group in Ness Ziona and in occasional projects.
- Loves trees, flowers, and being in nature.
- Loves reading books.
- (Couldn't resist) Loves coding clean code and creating new things 😊
- Curious and passionate!
