Experience

2014-present - Experienced Web Developer at Amdocs:

- Developing an ordering system from the ground-up using Microservices architecture. A comprehensive solution for the whole process of product ordering. We are the front of Amdocs both technically and in sales.
- Development & maintenance of a self-service portal for support tickets. We optimized the process saving time and money for both sides and made information accessible to allow a proactive approach to issues that arise. Including development of a mobile app to allow users to be constantly updated and alerted on the status of their issues

During this time:

- As a Clean code advocate I led sessions and counseled other team members
- As a technical lead on the team I attended a weekly forum and have been an early adopter of new methods and technologies.
- Participated in Git Masters forum and was Git focal in my team
- Introduced new technologies such as KnockoutJs, Less
- Lead projects in the development team as the experienced team member
- Skills: Java, Spring Boot, Maven, Couchbase, Git, SCRUM & agile methodologies, C#, ASP.NET, web components, HTML, JavaScript, CSS, jQuery, IIS, SQL Server, TFS, HTML5, Sass, Backbone.js, Bootstrap
- Debugging mobile devices for both functionality and performance.
- Implementing SSO with company LDAP
- Skills: HTML5, Sass, Backbone.js, Bootstrap

2012-2014 - Web Developer at [Yeshiva.org.il](#)

- Development & maintenance of a leading site in the area of Jewish content: videos, Q&A section, wiki and Hebrew calendar.
 - I led the migration from ASP.NET web components to MVC.NET
 - I introduced new technologies such as KnockoutJs, Less, TFS
 - I was In charge of the Wiki section - installation and maintenance, including writing custom PHP plugins
 - Skills: C#, IIS, HTML, JavaScript, CSS, jQuery, SQL Server

2010-2014 - Freelance Web Developer

- While in college, I built various web sites as a freelancer
 - PHP based, including mediawiki sites and addons. MySQL, a content management system.
 - Browser extensions

Other experience: AngularJS, Angular 2-4, vbScript, ActionScript, VBA, Bootstrap, Flash, jQuery plugins, single page application, responsive design, fluid design, front-end, UI, mobile, CSS preprocessing, performance optimization, hybrid mobile apps
