

Gal Shenkar

Mobile Developer (iOS)

052-474-9365 | gal22333@gmail.com | [LinkedIn: /gal-shenkar](https://www.linkedin.com/in/gal-shenkar)

SKILLS

- iOS Development - Swift for 2 years, Objective C for 2 years
- Backend development (Python and Java for 2 years)
- Photoshop (for designing and UX)
- Bash scripts
- C#, C++ and C (tutored highschool students)
- Experienced different operating systems and their internals (linux, macOS and Windows)

EXPERIENCE

IDF'S INTELLIGENCE AGENCY - iOS Mobile Developer, 2018 - 2020

Being a part of the special unit's R&D team, I developed several iOS applications using Swift and "Objective C" as major programming languages. I also used Photoshop to design the UX of the applications .

Major accomplishments:

- Written applications for encrypted communication over the internet.
- Took part in the development of the unit's core application The application was awarded an intelligence prize.
- Lectured for the unit's Python and Linux training
