

# SCOTT HARPER

• Junior Cyber Analyst •

## ABOUT ME

I'm much more than your average IT tech. I'm a Sherlock Holmes-type guy with a penchant for organization and planning. I love learning new things and spend a huge portion of my day to that end.

I'm currently a student at ITC studying SOC skills including attack techniques, scripting, SIEM systems, and network operations.

## EDUCATION

2021 • Israeli Tech Challenge  
SOC Analyst Bootcamp

2020 • COMPTIA Certifications  
A+, Network+, Security+

2018 - present • Open University of UK  
B.Sc in Economics and Mathematics

## EXPERIENCE

### 2021 **Wisdom-Tech**

IT Help Desk

- Troubleshooted system and network connectivity problems
- Maintained device hardware and software on primarily Windows systems
- Managed internal ticketing system

### 2020 **Study-ployment**

Productive Unemployment (Intentional)

- Took time off to change careers paths and study for COMPTIA certifications, courses on Cybrary in networking and security, and worked on my degree in Economics and Math

### 2017- **Braundcard**

2019 AML Officer / MLRO

- Designed, implemented, and audited the firm's AML and Risk management regimes from scratch
